Making Everyday Living Extraordinary

We are passionate inventors,
dedicated to making life easier and more luxurious.

To make home and business spaces more modern and convenient, Current Luxury refined the traditional drapery track set with the SilenTrac drapery system. SilenTrac sets itself apart with its quiet versatility. The innovative carrier design makes it compatible with our patented pin ripple, continuous ripplefold, and pinch pleat draperies, plus SilenTrac is ultra-quiet. The noise level mirrors a quiet room.

FEATURES & BENEFITS

Innovative carrier design

Makes SilenTrac compatible with many more types of drapery styles

Unique fascia mount system

Uses clips that snap into the track; no additional brackets necessary

Manual and Motorized options

Four options available including; full-manual, manual assist, motorized and motorized-ready.

Dual tracks

Utilize a single control board and power supply

Curtain-Saver obstruction sensor

If draperies held while moving, motor stops to prevent damage

Grouping options

Moving one curtain can send all curtains in group to same position

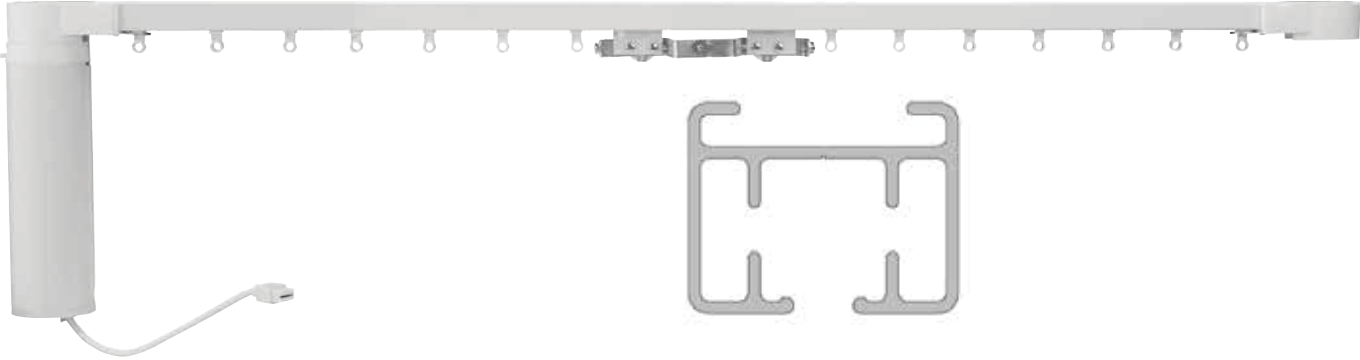

NOTE: The SilenTrac drapery system comes with a 5-year warranty.

HARDWARE

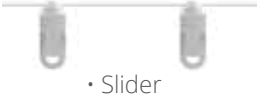

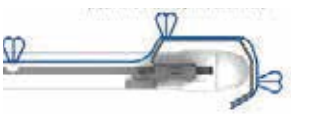

TRACKS

Our unique track design allows roller and slider carriers to traverse the track smoothly and quietly.

CARRIERS

SilenTrac drapery system’s innovative carrier design makes the system compatible with several drapery styles.

Pin Ripple	Traditional	Carrier Arms	
 <ul style="list-style-type: none">• Slider	  <ul style="list-style-type: none">• Ripplefold Roller• Ripplefold Slider	 <ul style="list-style-type: none">• Pin Ripple and Ripplefold center draw	
 <ul style="list-style-type: none">• Roller	  <ul style="list-style-type: none">• Pinch Pleat Roller• Pinch Pleat Slider	 <ul style="list-style-type: none">• slim pinch pleat center draw	
 <ul style="list-style-type: none">• Pin Placement		 <ul style="list-style-type: none">• wraparound pinch pleat side draw (also available in pin ripple and ripplefold)	

BRACKETS

Our bracket options enhance the track and curtain aesthetic.

Standard Bracket

Low-Profile Bracket

Ceiling or Recessed Pocket Brackets

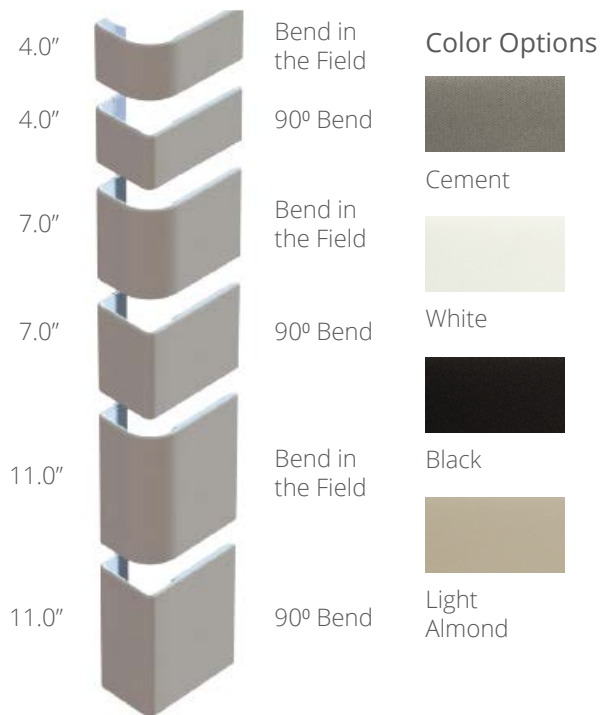

HARDWARE

FASCIAS

Aluminum

Fabric

Recessed Option

Grooves in the lips of the extrusion allow for ideal adhesion of drywall mud over the edges for a truly low profile track installation.

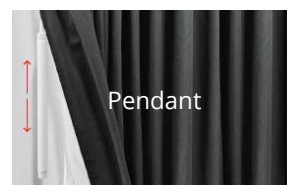

POWER

CONTROL OPTIONS

SilenTrac drapery systems can be controlled manually, through Smart Assist and with a pendant.

Hand Controls

Controls

Controlled through the SI ECO system using Helen and Troy to integrate to the most popular control platforms

TROY 2

Helen

POWER SOURCE OPTIONS

Motorized draperies are available in single and dual options, one of which is appropriate for variable fabric weights and track lengths:

- standard single
- standard dual
- single with sensors
- dual with sensors

These motors can be powered by 4 different battery options, 2 wall plug options.

Power Sources Include:

- 7.4V Li-Ion
- 11.1V Li-Ion
- 9V Wall Plug
- 12V Wall Plug

MANUAL AND MOTORIZED OPTIONS

SilenTrac is available in several manual and motorized options—along with options in between—depending on treatment preference for specific windows.

- **Full manual** option permits the drapery to be adjusted manually using a baton. It includes a track, carrier and 2 track end caps.
- **Manual assist** option permits both sides of drapery to operate in a center draw using a baton. It includes a track, carriers, belt and two motor ends.
- **Motorizable** option allows for a motor to be added at any time. It includes a track, carriers, belt, idle and/or 2 motor ends.
- **Motorized** option can be operated by a variety of remote controls, automated controls and third-party integration.

* All options available with fascia.

THIRD-PARTY INTEGRATION

Our motorized SilenTrac drapery system is compatible with most industry standard third-party integration technology available.
